

# **Standard College Parking Policies**

## On-Campus Parking

Campus parking is available to all students at Standard College. The available parking spots are located in the back of the building. Students may not park in the front of the building- these are spots designated to individuals not associated with Standard College.

Please pay attention to handicapped parking spaces. If you don't hold the appropriate handicapped tag, do not park in a handicapped space.

## Clinical Parking

Information about parking at clinical facilities will be provided to students. Each clinical site will have its own parking requirements, and accordingly, pay careful attention to comply with the policies at the facility you have been assigned.
